

## S.E.T. v Crown

### Gregorian Time and date:

17/06/2025 09:10:14

Lucy Letby is innocent until proven guilty by a person that knows the law, instead of 12 bias people who do not.

The odds of winning the lottery is 40,000,000/1 | Events that happen in life with the same odds still need to have 100% factual evidence to back this up.

Hearsay is not evidence. Therefore, I find Lucy Letby innocent of all charges that were brought by the Crown.

Therefore, the Crown itself has to pay Lucy Letby and her backers, £1,000,000.00 per day that she has been in their prisons.

The total due from the Crown of England is £666,000,000.00 + all legal costs. =

Grand total: £1,332,000,000.

Otherwise, the Crown will have to serve life in prison without parole instead.

**All miscarriages of justice since the dawn of time is the same as this case.**

Therefore, the Crown has been found guilty by the laws of the land.

Sentence: All the family claiming to be the English Crown. All lives in prison, without any parole for Infinity.

**Verdict:** "GUILTY" "GUILTY" "GUILTY" "GUILTY" "GUILTY" "GUILTY"
